Objective

Detail-oriented and results-driven Full Stack Java Developer with hands-on experience in designing, developing, and maintaining web applications using Java, Spring Boot, and modern front-end technologies. Strong understanding of software development life cycle, clean code practices, and responsive UI/UX design. Passionate about building high-quality solutions and continuously learning new technologies to enhance performance and scalability.

Technical Skills

Programming Languages: Java (Core Advanced), JavaScript, React.js (Basic)

Web Technologies: HTML, CSS, JSP, Servlets, XML, SQL, RESTful APIs, Microservices

Frameworks & Libraries: Spring Boot, Hibernate, Spring MVC

Databases: MySQL

Tools & Platforms: Git, Maven, Eclipse, VS Code, Postman

Education

Bachelor of Business Administration, Amity University, Noida

HSC, Taywade College, Nagpur – 69%

SSC, Bishop Cotton High School, Nagpur – 68%

Projects

Bank Management System

- Developed a full-stack web application for managing bank accounts
- Used Spring Boot to build RESTful APIs with MySQL
- Created responsive frontend with HTML/CSS/JS
- Implemented Login, Add, View, Update, Delete functionalities
- Applied DAO pattern and Prepared Statements

Employee Management System

- Java-based CRUD application for employee data
- JDBC integration for MySQL database
- Modular architecture (Model, Service, DAO layers)

Certifications

Full-Stack Java Development, Complete Java Classes, Pune

Internships & Training

Java Intern, WebCoreStone Software Solutions, Pune

- Worked on live Java projects bridging theoretical and real-world skills
- On-site internship with mentorship from development team

Java Developer Training, Complete Java Classes, Pune

- Hands-on training in Java, Spring Boot, REST APIs, Hibernate
- Built mini-projects with full-stack architecture
